EDUCATION

Kohat University Of Science And Technology, Kohat
Bachelor of Science in Computer Science , Khyber PakhtoonKhwa, Pakistan   **Sep 2021 - Sep 2025**

EXPERIENCE

Android Developer Intern, InternGrow   **Nov 2024 - Dec 2024** (Remote)
- Developed a news app using Jetpack Compose, implementing MVVM architecture and integrating Retrofit for real-time article updates.
- Built a social networking app with Firebase Authentication & Firestore, enabling friend requests, user search, notifications, and blocking features.
- Implemented real-time messaging and user management functionalities for enhanced engagement.

Android Developer Intern, DevelopersHub.co   **Dec 2024 - Feb 2025** (Remote)
- Built a social connect app using Jetpack Compose, leveraging State Management & MVVM architecture for seamless user interactions.
- Implemented user authentication, allowing users to create/manage profiles, post content, react, comment, and search for users/posts.
- Integrated a real-time chat system for direct messaging between users.

PROJECTS

BuddyShuffle   **Dec 2023 - Mar 2024**
- Developed an Android social networking app using Firebase Authentication, Firestore, and Storage.
- Implemented friend request system with options to send, accept, and decline requests.
- Added blocking functionality to prevent unwanted interactions.
- Integrated real-time messaging for seamless communication between friends.
- Enabled media sharing, allowing users to send images and other media files.

Votify App (Final Year Project)   **Mar 2024 - dec 2024**
- Developed an election result & voting management app with real-time vote tracking using Jetpack Compose.
- Built a custom admin panel for managing candidates, results, and user access.
- Integrated an AI assistant to provide election insights and candidate details.
- Designed an interactive result visualization system using charts and filters.

AI Image & Voice Generator with Cartoonization   **Jan 2025 - Feb 2025**
- Developed an AI-powered app for image cartoonization and AI-generated voice creation.
- Implemented multipart/form-data API handling for seamless image uploads and AI interaction.
- Designed an intuitive UI for effortless image & voice generation with saving options.

TECHNICAL SKILLS

- **Languages:** Java, Kotlin, Dart, C++, C#, SQL(MySQL, Oracle, SQL-lite)
- **Frameworks & Technologies:** Jetpack Compose, Flutter, Dagger Hilt, Firebase (Firestore, Authentication, Notifications), Room Database, Jetpack Architecture Components (StateFlow, ViewModel), Compose Navigation.
- **Libraries:** Retrofit, Coroutines, Flow, Coil, Firebase SDK.
- **Developer Tools:** Android Studio, Android SDK & NDK, Git & GitHub, Firebase Console, Postman, Gradle, ADB, Figma
- **Certifications:** Mobile App Developer Certification – HERA   **June 2023 - Aug 2023**
- **Diploma:** Information Technology   **Mar 2021 - Mar 2022**
